# High performance office communication platform

The imageRUNNER ADVANCE C5500i Series delivers high performance and quality colour output for demanding office environments. These intelligent multifunctionals enhance productivity through improved document workflows and intuitive user experience. With added security features, the imageRUNNER ADVANCE C5500i is an essential device for any modern day working environment.

## Workflow Efficiency

- Intuitive user interface with a large, colour touchscreen provides users with smartphone-like usability, making navigation a breeze.

- Intelligent feeder allows effortless, rapid scanning with features like multi-sheet feed detection and skip blank originals.

- My ADVANCE enables a unique, personal experience tailored to meet each user's workflow needs.

- Canon's MEAP platform provides process optimisation, by integrating with a range of powerful document, capture and output management solutions.

- Scalable support for mobile and flexible working styles allow workers to capture or print documents with the Canon Print Business app.

- Scan and convert documents through a single-pass duplexing document feeder that holds up to 150 originals.

- Intelligent Recovery wakes device from sleep mode when user is approaching device via motion sensor technology.

- Various finishing functions such as Staple-on-Demand, ECO-Staple, saddle stitch, double/corner stapling and foldings are available as an option.

## Security

- Control who has access to the device with Picture Login authentication.

- Prevent unauthorised distribution of sensitive information with an array of standard and optional document security features.

- Ensure information privacy and security across your network with IPsec, port filtering capabilities, and SSL technology.

- Secure Print and Mailbox enhance document confidentiality.

## Cost Management

- The ability to apply print policies, monitor output, and restrict usage by user helps reduce unnecessary printing, encourages cost recovery, and can help save money on paper and toner.

- Tight integration with output management solutions, such as uniFLOW, provides the ability to carry out detailed tracking, reporting, and cost analysis.

- Quality and reliability, combined with remote diagnostics and assistance, can help reduce costs by minimising downtime and time spent by IT resolving issues.

- Consistent user operation combined with remote and centralised fleet management can help simplify IT management of devices and entire fleets.

## Device and Fleet Management Efficiency

- Synchronise personalised user settings across multiple devices through My ADVANCE Sync.

- Canon's device management tools give you a centralised point of control across your entire fleet, upgrade devices remotely, check device and consumables status and capture meter readings.

- Standard PCL and optional Adobe PostScript print driver allows seamless integration with enterprise applications.

- Remote diagnostics allow timely, accurate and effective resolution.

## Reliability

- V$^2$ (Vivid & Vibrant) imaging technology ensures high quality printouts that impress time after time.

- Supreme transferability of toner and stable reproduction of colours onto a wide range of media, even at large volumes.

- State-of-the-art imaging technologies and toner allow for consistently striking images with real 1,200 dpi. print resolution.

- Designed to achieve maximum uptime with intuitive user walkthrough videos and status notifications, to help keep supplies replenished.

- Maximum paper capacity of 6,350 sheets reduces downtime.

## Sustainability

- Fusing technologies, CS toner, and innovative sleep mode features help lower overall energy consumption.

- Minimise waste with 2-sided printing, secure printing, and the ability to hold print jobs, preview them and change print settings at the device, achieving the desired results at the first time of printing.

- Incorporates sustainable design, with the use of recycled materials and bio-based plastic, and a focus on minimising environmental impact.

- Consumes as little as 0.9W in sleep mode.

# Configuration
