OCÉ PLOTWAVE 345/365 PRINTING SYSTEMS

Flexible and secure technical document management for professionals

- Printer only or multifunction (print/copy/scan) system with integrated scanner
- Integrated Top Delivery Tray (neatly collates and stacks up to 50 E-size plots)
- Océ ClearConnect panel (intuitive touchscreen interface system)
- Cloud integrated workflow option (scan to/print from cloud)
- Proven Océ core technologies deliver unmatched productivity
- Single or optional dual roll media capability (up to 650 feet per roll)
- Portfolio of options to add additional levels of security

NEW FEATURES!

- Océ POWERsync Controller with Microsoft Windows 8 Embedded, 64 bit
- Scan Templates (customize and save your specifications)
- Advanced security options
- UniFLOW on the Océ ClearConnect user interface (optional)
- Compatible with Océ Publisher Select™ 2 job submission software
- EPEAT Bronze compliant

Océ ClearConnect User Interface

Large format technical document management with advanced security

Designed for CAD professionals, the Océ PlotWave® 345 and Océ PlotWave 365 printing systems address end-to-end technical document workflow. From print drivers and job submission software to neatly stacked and collated documents, you can depend on our solutions, developed to meet and exceed real world needs for decentralized environments with small to mid-sized CAD workgroups.

Touch the new way of walk-up printing, copying, and scanning with the large Océ ClearConnect colour touchscreen interface. Using the same multi-touch gestures as tablet computers and high-end smartphones, you can easily control the printer, copier, and scanner with your fingertips. Tap, pinch, swipe, flick, spread, and more. Zoom in on details of a drawing. Print from and scan to your cloud of choice, USB flash drive, or network folder. Configure the Océ Smart Inbox and send print files and jobs to a project or personal folder. Then simply walk up and select your files or jobs you wish to print. Documents are output to the integrated Top Delivery Tray using air separation for neatly stacked and collated documents.

- 7 Cleaning

Océ core technologies

OCÉ RADIANT FUSING TECHNOLOGY

An eco-friendly fusing method providing instant-on with no warm-up time required. It consumes less energy and emits less noise when compared to conventional fusing.

Work faster by minimizing waiting time. Enables quick printer availability even from sleep mode. From cold sleep to print in hand—in less than 40 seconds. Compared to a slow three minutes for conventional large format printers, Océ Radiant Fusing technology can save up to an hour per day in printing delays.

Reduce energy usage with Energy Star-approved Océ Radiant Fusing technology. During the fusing process, the toner melts and is fused to the media via heat rising from a grid of wires, without distorting the image. With no conventional pressure rollers required, a lower temperature can be maintained. Since the system heats and cools instantly, there is no need for noisy fans, and the system runs “whisper quiet” in stand-by, ready, and sleep modes. Océ Radiant Fusing technology results in sharper printed output, while preventing resolution loss, dot size degradation, and line fuzziness as a result of the toner melting exactly where it is placed on the media.

OCÉ COLOR IMAGE LOGIC TECHNOLOGY

Developed and patented with the objective that 99% of all originals should be copied and scanned with the right quality the first time without any operator intervention. This improves efficiency as the process of copying and scanning can be a very time-consuming task. Technical document originals, even if imperfect — including dark backgrounds, fold lines, wrinkles, or text — result in high quality copies and scans the first time.

New technologies!

OCÉ POWERSYNC CONTROLLER WITH MICROSOFT WINDOWS 8 EMBEDDED, 64 BIT

Engineered to handle complex operations efficiently, from enriched document previews to processing complex PDF files. The system is driven by a Microsoft® Windows® 8 Embedded platform, offering the latest security features to protect confidential documents.

SCAN TEMPLATES — CUSTOMIZE AND SAVE YOUR SPECIFICATIONS

In the daily scan workflows of enterprises, there is a strong need for the standardization of scan jobs for consistency. In order to increase the scan productivity even more, the Océ PlotWave 345/365 printing systems introduce scan templates accessible on the home screen of the Océ ClearConnect user panel. You can define up to 200 templates via Océ Express WebTools software. All settings available within the scan menu can be stored in one template and named for easy recognition (for example, original type, file type, resolution, destination, filename prefix, etc.).

ADVANCED SECURITY OPTIONS

Removable Hard Drive

Removable Hard Drive Kit with option for additional hard drive to physically remove and lock away the system's hard drive.

Access Management

Require users to authenticate themselves via the Océ ClearConnect touchscreen interface or via a supported third-party Smart Card Reader.

Disk Encryption

Windows Bit Locker Drive Encryption provides data protection for the controller via a Trusted Platform Module (TPM) microchip. Both the TPM and the Bit Locker functionality used for data encryption are FIPS 140-2 level 1 validated.

1 FAST AND EASY WITH OCE CLEARCONNECT PANEL

- Touchscreen with multi-touch gestures for tablet/smartphone-like interaction.
- Easily control printer and scanner/copier with your fingertips using the simple screen movements.
- Swipe, spread, and zoom in on details of a drawing.
- Live Preview function to confirm documents are correctly scanned to avoid errors.

2 NEAT DOCUMENT DELIVERY

- Integrated Top Delivery Tray neatly stacks and collates up to 50 E-size/A0 documents.
- Air separation technology prevents large documents from cascading onto the floor like conventional top stackers.
- Optional Océ Delivery Tray provides additional 150 sheets (E-size/A0) capacity.
- Optional Estefold 2400 fanfolder.

3 GET BETTER COPY AND COLOUR SCANNING RESULTS

- Océ Image Logic® technology automatically compensates for wrinkled and light-coloured originals to produce superior results.
- Originals are inserted face-up and width of original is detected automatically.
- Create one-touch Scan Templates to capture commonly used settings or to require standardized scan settings.

4 INSTANT PRODUCTIVITY WITH OCE RADIANT FUSING TECHNOLOGY

- Get instant start-up and use half the energy of comparable systems.
- Fast first print out. From cold sleep to print in hand in less than 40 seconds.
- Increase productivity even more with the second roll option for multiple width rolls or longer unattended printing.

5 EFFORTLESS ROLL CHANGING

- Up to 650-foot roll length for maximum efficiency.
- Built-in roll loading station in each drawer.
- Media is auto-fed into the printer and roll width is auto-detected and displayed on the Océ ClearConnect touchscreen display.

6 RELIABLE QUALITY AND PERFORMANCE

- Take advantage of superb print quality with high resolution Pico Printing at 600 x 1200 dpi.
- Award-winning industrial design with robust and durable materials.
- Extensively used areas of the printer are fabricated out of metal for commercial duty.

7 ECO-FRIENDLY SYSTEM

- This system has the lowest sound levels and heat compared to conventional fusing systems which operate on heat and pressure rollers and fans.
- Can be located and operated within workgroup environments.
- Closed toner system is easy to refill with no clumsy toner cartridges to unscrew or spill. Toner can be added while printing.

8 PRODUCTIVE AND SECURE OCE POWERSYNC CONTROLLER

- Get the power to handle large and complex technical documents thanks to the productive Océ POWERSync Controller.
- Concurrency. Scan and copy while printing.
- Protect confidential information with the latest security and protection features supported by a Microsoft Windows 8 embedded platform.
- The open interface of the Océ POWERSync Controller enables the printer to embed software like uniFLOW.

9 FLEXIBLE WORKFLOW

- This system is designed to make it easier to prepare, produce, and manage complex technical documents and sets of drawings.
- Advanced tools make it easy to get documents where you need them, when you need them.

PRINT SYSTEM	
1 roll (standard) or 2 rolls printing system	Productive large format monochrome printer with Océ ClearConnect multi-touch user panel
Stacking systems (standard)	Integrated Top Delivery Tray. Up to 50 sheets E-size/A0 capacity
Océ ClearConnect multi-touch user interface (standard)	Consistent look and feel from every angle of your workflow, standard including Océ Smart Inbox, Océ SmartAccess, and Océ Live Preview
Océ media switch (standard)	Fully automated media switch guides the printed documents to the top delivery tray or back output depending on the user application
Océ ClearConnect Workflow software (standard)	Océ Wide Format Printer Driver 2 for Microsoft Windows, Océ PostScript® 3 driver, Océ Mobile WebTools for Apple® iOS, Google Android™ and BlackBerry®, Océ Publisher Mobile for IOS and Android, Océ Publisher Express, Océ Publisher Select 2
Productive scanning system (optional)	Océ Scanner Express with Océ Image Logic technology
Folding systems (optional)	Estefold 2400 fanfolder; Level 0 (inline) integration with printer
Stacking systems (optional)	Océ Delivery Tray provides an additional 150 sheets (E-size/A0) capacity. Increases total stacking capacity from 50 (Top Delivery Tray) to 200 sheets.
Media capacity upgrade (optional)	Second roll option to increase media capacity from 1,950 to 3,900 ft. ² (183 to 365 m ²)
Workflow software (optional)	Océ Direct Print Pro, Océ Direct Print, Océ Publisher Select 2, Adobe® PostScript 3™/PDF file interpreter, Océ Repro Desk®, Océ Account Center, Océ View Station
Hardware (optional)	Second roll, Océ Scanner Express, Removable hard disk, Climate Control, Estefold 2400 fanfolder, Océ Delivery Tray, TPM module (required with Disk Encryption option)
Starter kit includes	1 bottle toner (400 g), 1 bottle developer (1,750 g), 1 roll 36" 20 lb. bond paper (75 g/m ²)
GENERAL	
Fast print speed	Print speed up to 4 ppm D-size/A1 (Océ PlotWave 345 printer), up to 6 ppm D-size/A1 (Océ PlotWave 365 printer) 1-click printing from USB 1-click printing from Océ Smart Inbox or last send job (Océ SmartAccess) Instant start-up due to Océ Radiant Fusing technology
Virtually Silent* in Standby and Sleep (*under 25 dB)	Radiant Fusing technology eliminates noise
Accelerated first print out time from standby mode (D-size/A1)	30 seconds
Accelerated first copy out time from standby mode (D-size/A1)	35 seconds
Average first print out time from sleep mode (D-size/A1)	40 seconds (including 1-click USB printing, file processing, top delivery)
Imaging technology	Electrophotography (LED) with Organic photoconductor (OPC); Océ Radiant Fusing technology with instant warm-up; Clean toner refill system; Virtually no ozone emission

GENERAL (CONTINUED)	
Fusing technology	Océ Radiant Fusing technology; instant warm up
Toner/type	Océ black toner: 400 grams per bottle
Speed (print and copy)	Océ PlotWave 345 printer: 4 D-size/A1 per minute, 2 E-size/A0 per minute Océ PlotWave 365 printer: 6 D-size/A1 per minute, 3 E-size/A0 per minute
Resolution	600 × 1200 dpi
Minimum line width (ISO/IEC 13660:2001E)	0.00236" (0.06 mm)
1:1 line accuracy	< 0.3 % (E-size)
Main engine size (W×D×H)	Compact design: 60.1" × 31.6" × 58.9" (1527 × 803 × 1495 mm) including Top Delivery Tray
Main engine weight (printer only)	397 lb. (180 kg)
MEDIA HANDLING	
Media capacity	One roll (standard); option for second roll; manual feed of cutsheet media
Media cutting	Cutters included in the media drawer for fast media switching
Maximum media capacity	One roll (650' L × 36" W): 1,950 ft ² ; two rolls (650' L × 36" W): 3,900 ft ²
Media sizes	ARCH: B, C, D, E, E1, 30", 21", 15" ANSI: B, C, D, E ISO: A3, A2, A1, A0, B2, B1, B2_700, B1_700
Media weight	Bond: 16–28 lb. (60–110 g/m ²); film: Polyester 3.5 mil
Minimum roll width	11" (279 mm)
Maximum roll width	36" (841 mm)
Supported roll widths	11", 12", 15", 17", 18", 21", 22", 24", 30", 34", 36" (297 mm, 420 mm, 500 mm, 594 mm, 700 mm, 707 mm, 841 mm)
Minimum printed length	16.5" (420 mm)
Maximum printed length	577' (176 m)
Media type	Paper: Engineering bond, vellum, recycled bond, tinted bond, Xtreme 27# bond Film: Polyester 3.5 mil
Automatic media handling	<ul style="list-style-type: none"> Automatic media selection (based on drawing size and finishing) Automatic optimization of media selection for productivity and media saving Automatic rotation and alignment for folding Automatic legend detection

USER INTERFACE	
Description	Océ ClearConnect multi-touch user panel
Size (W×D×H)	11.8" × 8.7" × 1.6" (300 × 220 × 40 mm); Touch screen: 10.4" (264 mm) color LCD (diagonal)
Resolution	800 × 600 pixels
Number of colors	16.2 million
Technology	Projective capacitive touch
Operation	Three hard buttons: [Wake-up], [Stop/interrupt/abort], [Home] Multi-touch functions: tap, double tap, pinch, two-finger pinch, swipe, flick, and spread
Interface design	Distinctive user interface with intuitive navigation and clearly defined levels of operation
Features	View optimization: Tilt (-4 to +45 degrees) and swivel (-45 to +180 degrees) Status light (red, orange, green); USB 2.0 interface with indication light
CONTROLLER	
Description	Océ POWERSync Controller with Windows 8 embedded, 64 bit
Processor	Dual-Core G1620 @ 2.70 GHz
Memory	4 GB DDR3 (standard)
Video	Intel® HD Graphics, 1 GHz
Hard disk	500 GB, 7200 rpm (standard)
Interface	Ethernet 100 Mbits/s, 1 Gbit/s TCP/IP: DHCP, IPv4, IPv6, HTTPS Discovery: APIPA, WS-Discovery, SNMP
Page description language	TIFF, JPEG, HPGL, HPGL2, DWF, C4, Calcomp 906/907/951, CALS, NIRS, NIFF, PS/PDF (optional)
Printing protocol	LPR, FTP, WebDav, WSD print
Back channel protocol	SNMP, Océ Wave interface, WS-Discovery
Security	E-shredding, IPSec, IP filtering/Access Control Lists, HTTPS, audit logging, network protocol enable/disable, LDAP integration, Active Directory Integration (optional), user authentication on local ClearConnect user panel (LDAP/Active Directory credentials, smart card) for scan/copy/print, configure HTTPS Certificates, removable hard disk option, optional FIPS 140-2 Certified Trusted Platform Module (TPM) and BitLocker-based hard disk encryption, hard disk wipe (only with disk encryption), configurable CA certificate, disable network ports and protocols, security event logging, optional single sign-on (on device)
Cloud support	Unlimited user- and/or administrator-authenticated cloud support via WebDav and/or third-party provider (e.g. Microsoft® SharePoint®, Dropbox®, Box.com, box.net, Google Drive®, Microsoft® OneDrive®, Amazon Cloud Drive®, Cloudsafe®, MyDisk®). The cloud user authentication can either be preconfigured by the administrator or done by the user at the time of accessing the specific cloud.
Transformations	Scaling (scale-to-fit page, reduce when image too large to avoid clipping or to custom factor, scale page size to standard size); Rotation; Shift (automatic or user-defined); Adding/removing trailing/leading edge; Mirror; Black intensity in poster mode; Print optimization (standard, lines/text, poster); Color Highlight and Dark Original; Area to erase (area of interest).

SCANNER	
Description	Contact Image Sensor (CIS) Color scanner with Océ Image Logic technology
Scan resolution	600 × 600 dpi. Selectable Resolutions: 100, 200, 300, 400, or 600 dpi.
Scan speed	Monochrome: Up to 47.9'/min (14.6 m/min) Copying: Up to 31.8'/min (9.7 m/min) Color: Up to 15.7'/min (4.8 m/min)
Scan formats	TIFF, PDF, PDF/A, JPEG, CALS, multi-page PDF, multi-page PDF/A, and multi-page TIFF
Scan templates	Virtually unlimited number (200) of scan templates to standardize common scan settings and destinations
Scan destination	Local USB flash drive, FTP, SMB, Smart Inbox on Controller, Optional Local Home folder (LDAP), mobile device via Océ Mobile WebTools, WebDav Cloud
Scan naming	Preset naming with auto-numbering for productive scanning or create file name on the ClearConnect user panel keyboard
Original width	Minimum: 8.2" (208 mm), Maximum: 36" (914 mm)
Original length	Minimum: 8.2" (208 mm), Maximum: 52.5' (16 m)
Original thickness	Maximum 0.03" (0.8 mm), non-rigid documents
Zoom (copy)	1:1, Scale to media size, Scale to standard format, Custom: 10 – 1,000 %
Original type presets	Lines and text draft, lines and text standard, folded lines and text, photo, colored original, artwork, map, dark original, blueprint
Scanner dimensions (W×D×H)	43" × 12" × 5.5" (1,097 × 308 × 140 mm)
Scanner weight	55 lb. (25 kg)
ENVIRONMENTAL	
Sound power level	Standby and sleep modes: < 25 dB; Print mode: < 55 dB
Ozone concentration	< 0.001 mg/m ³ , < 0.000473 PPM (0.05% of permitted limit value)
Heat emission	Ready: 72 W, Active: 1.6 kW
Power requirements	90 – 240 V, 50 – 60 Hz
Power consumption	Sleep: 1 W, Ready: 88 W, Active: 1.5 kW
Safety/EMC marks & environmental labels	CE, TÜV GS, CETECOM, c-UL-US, ENERGY STAR 2.0, FEMP, Rohs, CCC, VCCC
Recyclables	Printer: Made of steel and highly recyclable plastics, up to 95% of the engine can either be upcycled or recycled. Remaining 5% is non-toxic waste. Toner: Bottles made of highly recyclable HDPE (High Density Polyethylene)

OCÉ CLEARCONNECT WORKFLOW SOFTWARE	
Job submission	<p>Create, retrieve, and/or send jobs from drivers (Océ Wide Format Printer Driver 2 for Microsoft Windows, Océ PostScript 3 driver for Microsoft Windows or Apple OS), external locations (SMB, FTP, LPR, WebDav), Mobile devices via Océ Express WebTools and Océ Publisher Mobile, USB flash drive, Cloud services, and optional Home folder (LDAP).</p> <p>1-click printing from USB, 1-click printing from last send jobs via Print SmartAccess on Océ ClearConnect user panel. The Smart Inbox on the Océ ClearConnect user panel enables job preview: swipe between your jobs for print selection and preview. Pan to view the image in detail (zoom).</p> <p>With the template oriented Publisher Select 2 submitter for Microsoft Windows, multiple files are supported. Print multiple times and sort by page or set. Media saving automatically rotates print files to optimize media usage.</p>
Queue management	<p>Spool memory provides a queuing system for print and copy jobs. This allows multiple users to send print and copy jobs at the same time. Customize priority settings for copy and print jobs in the queue.</p> <p>The job queue overview gives access to job names, owners, and status including required media. Jobs can be paused, deleted, and placed on top of the queue.</p>
Print management	<p>View counter history at preferred time periods, per job, or total overview.</p> <p>View, create, edit, and delete stamp templates.</p> <p>Optional uniFLOW support; log in your personal uniFLOW Queue on the ClearConnect User interface. Supports manual authentication and card readers.</p>
Scan to file	<p>Océ Scanner Express offers full hybrid performance with its template-based scan-to-file functionality. Scan to file in three easy steps. Insert the original in the color scanner, select the template of your choice, and touch the scan button. Send files, via SMB, FTP, WebDAV, SNMP (optional) to various locations such as local drives, personal smart inboxes, personal home folder via active directory (optional), or the cloud application of your choice.</p> <p>Scan to USB or use Océ Mobile WebTools and Océ Publisher Mobile to scan to mobile devices.</p> <p>Custom scan file naming to any location. Check plot functionality.</p> <p>Océ ClearConnect supports Live Preview during scanning on the user panel. Check and zoom in on details of your document thanks to the full preview functionality of the Océ ClearConnect user panel or remote on your PC.</p>
Scan to Canon color inkjet printer	<p>Scan directly to Canon imagePROGRAF® IPF 800 series via Océ Publisher Select 2.</p>

OCÉ CLEARCONNECT WORKFLOW SOFTWARE (CONTINUED)

Océ ClearConnect multi-touch user interface

Océ ClearConnect enables a consistent view on your workflow from every possible angle, and job management is made easy. Default jobs can be performed by only clicking the green button (Océ SmartAccess for Print, Scan and Copy). Behavior is customizable via Océ Express WebTools. Edit the most commonly used job settings for copy, scan, and print jobs. Presets can be defined in Océ Express WebTools.

The Smart Inbox supports multi-user environments and 1-click printing via the Océ SmartAccess for all users.

Thanks to the virtually unlimited number of Scan Templates (up to 200), scanning is as easy as 1-2-3. Insert your original, select the template of your choice, and touch the Scan button for the best scan quality thanks to Océ Image Logic technology.

The Océ Express WebTools controller application supports customizable workflows. Separate work spaces give you a complete overview and full control over print and scan job management. Tasks you can manage are: Settings and configuration management, Network connectivity management, Queue management, License management, System monitoring, Scan retrieval, Print job submission. You can access the integrated Océ Express WebTools controller application from any networked workstation.

Job Queue view to check the status of your job in the print queue, available wherever you are with a single click.

The Océ ClearConnect interface includes context-sensitive online help. Switch between languages easily on the Océ ClearConnect user panel.

Use the Smart Inbox to view all jobs with status, job name, and owner. Actions to print, print all, edit, send to..., delete, and save. Custom sorting of jobs in list or group view.

What you see is what you print with Océ Wide-Format Printer Driver 2.

Open API for third party or own-developed applications integrated with the Océ ClearConnect user panel.

Configurable accounting.

Mobile and Cloud

Print from and scan to the cloud of your choice. With the help of mobile applications such as Océ Mobile WebTools and Océ Publisher Mobile, the printer can be easily accessed and used from any location.

ABOUT THE PROFESSIONAL PRINTING SOLUTIONS GROUP.

The Professional Printing Solutions Group (PPSG) is a division of Canon Canada. Formed in January 2014 after Océ-Canada Inc. was amalgamated by Canon Canada Inc., PPSG is the leading provider of printing solutions for professionals. PPSG's product offerings include digital presses, high speed digital production printers, wide format printing systems and workflow software for transaction, direct mail, graphic arts, technical documentation and colour display graphics.

ABOUT CANON CANADA INC.

Canon Canada Inc., a wholly owned subsidiary of Canon U.S.A., is a leading provider of consumer and business-to-business digital imaging technology solutions. Innovation and cutting-edge technology have been essential ingredients in Canon's success. Its parent company, Canon Inc., ranks among the Top 4 in US patents registered since 1994. Canon ranks among the world's Top 30 brands and is one of Forbes' Magazine's World's Most Admired Companies. Canon Canada Inc. is committed to the highest level of customer satisfaction and loyalty, providing 100 per cent Canadian-based service and support for all of the products it distributes. Canon Canada Inc. is dedicated to its Kyosei philosophy of social and environmental responsibility.

The Canon logo, consisting of the word "Canon" in a bold, red, sans-serif font.
