Work Fast. Work Smart.

ULTRA-FAST SPEEDS UP TO 80PPM

LASER-LIKE PRINT QUALITY SHARP TEXT WITH RICH COLOURS

÷

LOW MAINTENANCE MINIMAL DOWNTIME

Print Productivity That Means Business

Hard working businesses can now enjoy minimum downtime and put regular maintenance worries aside with the next generation Canon Business Inkjet WG7700 Series. Together with fast print speeds of up to 80ppm and laser-quality printing, Canon's superior engineering delivers a knockout with a near-straight paper path for low paper jam occurrences, elevating continuous printing productivity while minimising machine downtime. Work fast, work smart. Make that business breakthrough today with the ultimate A3 multifunction printing workhorse.

PRODUCTIVITY

The Canon WG770 Series will bring increased productivity to your business with time-saving features. Expect near-zero waiting time for first printouts, high speed printing and huge paper feeding capacity to satisfy the most demanding print job.

HIGH SPEED PRINTING

Fast print speed of up to 80 ppm enables handling of high volume print with shorter waiting time.

FAST FIRST PRINT OUT

Less waiting time for your first print out with the fast first page out speed of 6.5 seconds.

LARGE PAPER FEEDING CAPACITY

Reduce the frequency and time required to replenish paper during large print jobs.

SINGLE PASS DUPLEXING

Enhanced your work efficiency and save time with the Single Pass Two-Sided Auto Document Feeder (ADF) by scanning both sides of a document simultaneously and digitise large volumes of documents quickly.

PERFORMANCE

The WG7700 Series combines state-of-the-art technologies for powerful performance minus lengthy downtimes. Expect high quality laser-like printouts with the New Line Print Head and pigment inks.

HIGHLIGHTER & SPILL RESISTANT INKS

The ink contains water-soluble urethane resin that forms a strong and flexible film on the printed surface, which helps to reduce smearing and bleeding.

HIGH DENSITY BLACK INK

Utilizing a high-density black ink to print vivid and sharp office documents, the text on reports, emails, spreadsheets, will always be crisp and easy to read.

NEWLY DESIGNED INK FORMULATION FOR BETTER PERFORMANCE

With a new ink formulation and low surface tension, the WG7700 Series inks are able to absorb into the paper more quickly than traditional ink methods.

ANTI-CURL TECHNOLOGY

With new ink formulations, the amount of colorant in the ink is increased, with water content reduced and an anticurling solvent added.

LESS PAPER JAMS

Featuring a straight-line, high-speed paper movement that reduces tension and stress on paper as well as incidences of paper jams. The WG7700 Series can effectively handle large print volume at ease.

1

2

3

HIGH-PRECISION LINE PRINT HEAD

The new line print head spans the entire paper width and only paper moves while printing, delivering highspeed, accurate printing.

DUAL NOZZLE CHECK MECHANISM

Featuring optical and in-nozzle sensors, the WG7700 Series can monitor ink ejection in real time and make adjustments even during printing for the best results.

The WG7700 Series is designed for easy operation and maintenance. Navigate all printer operations through a simple and intuitive touchscreen user interface.

EASY SETUP

The user-friendly, 5-inch colour LCD touchscreen makes setting up the printer a breeze, even for first-timers, by displaying the instructions onscreen.

SIMPLE, INTUITIVE NAVIGATION

Easily navigate through all printer operations within one simple, intuitive touchscreen.

DIRECT USB CONNECTION

Easily print and scan without a computer, by using a USB flash drive.

EASY MAINTENANCE

With only one replaceable part – the ADF roller kit, the WG7700 Series are easy to maintain for end users. Even the ink bottles and maintenance cartridge are easily replaced.

WIDE RANGE OF MEDIA SUPPORT

Supports a variety of media types such as envelopes, long paper, and even matte photo paper, with various paper weights up to 256 gsm and size up to 13×28 ".

AUTOMATIC PAPER SIZE SENSOR

Built-in sensors detect the size of the paper you load into each cassette and adjusts the printers settings automatically.

DISCLAMERS Specifications are subject to change without notice. 1. Print Speed is based on ISD/IEC 24734. Measured in default mode (General Mode: 600dpi) and calculated by Canon original methodology. Print speed varies depending on system configuration, interface, software, content of document, print mode, media type, weight and used cassette et. 2. Print Speed is based on ISD/IEC 24734. Measured in fast mode (Diffee Document Mode: 300dpi) and calculated by Canon original methodology. Print speed varies depending on system configuration, interface, software, content of document, print mode, media type, weight and used cassette et. 2. Print Speed (FPOT) is based on ISO/IEC 24734. Measured in fast mode (Diffee Document Mode: 300dpi) and calculated by Canon original methodology. Print speed varies depending on system configuration, interface, software, content of document, print mode, media type, weight and used cassette et. 4. With custom setting, cassette 1 supports 900 × 1900 mm to 2160 × 2270 mm, cassette 2, 3 and 4 supports 1397 × 2100 mm to 2370 × 4318 mm. 5. Depending on the driver software, this marging rate when scanning the original A When scanning in high resolution, is based on the SO/IE C4731. This is the maximum sampling rate when scanning the original A. When scanning in high resolution, is based on the software does and rate of the software, content of document, print mode, media type, weight and used cassette et. 4. With Canon original Method. With Canon original FAX testing of that: A tual speed varies depending on tote of the software does and rate of the software content of document, print mode, media type, weight and used cassette et. 1. With Custom setting, cassette 1 supports 900 × 1900 mm to 2160 × 2370 mm, cassette 1. 3 and 4 supports 1397 × 2100 mm to 2370 × 4318 mm. Stol/IEC 24718 L tast transfer seed in deasured with Canon original FAX testing date default mode (method with Canon original FAX testing date. This is the method used cassette et. 1. Print Speed (FPOT) is based on Conte
